About the year 1927 the supervisors of Brunswick requested me to copy and index the marriage bonds of that county from 1752 when they began to appear in their loose papers until our vital statistics began in the year 1852. From the beginning I listed them on cards, then entered them in a book provided by them.

At first I thought of using these records in my forthcoming history of the county, however after finding them sufficient for a separate volume, and after the advice of family and friends decided to publish it as a separate volume.

When I undertook the work the old bonds were torn, some in many pieces, some almost illegible so had to be examined under strong light with magnifying glass in order to piece out signatures or water marks.

1127354

A few proofs of marriages were found before bonds were preserved before 1752 when they were more numerous; some had been purloined over the years so estate settlements as found in order books, occasionally in will books or deeds; these I have from time to time entered in a special note book, so have included them here giving sources. After Greenville County was formed in 1782 the marriages of the people formerly listed in Brunswick are there.

Those bonds or proofs of marriages other than bonds are listed as in W.B. meaning will book, D.B. deed book, O.B. meaning order book with volume and page. I have used Eliz. for Elizabeth since it was written in several ways, also Eliza is often mistaken as Elizabeth which also was often written Eliz.<sup>a</sup>

Securities on bonds were occasionally members of one or the other party to the forthcoming marriage, otherwise the county clerk or some onlooker signed.
